

CO-2  
Awards Committee  
08 January 2012  
Elvita Landau, Chair

Please review the Manual of Procedure documents that have been updated from what was received so far from officers, state reps, committee chairs and Judy.

It's been an interesting process. Some changes were made in 4/11 that, for some reason, did not get posted to the website, so if you were working off the posted MOP, it may not be the newest version. What is attached and posted with this agenda is current. Please let me know if I missed an email from someone or otherwise failed to include your suggestions. There are several places you will find highlighted. Those are items that I felt deserved further discussion. Numbering hopefully has been corrected. There are still some format issues, but those will be corrected when approved. Feel free to point them out to me. Thanks for your assistance.

I did not work on the Appendices yet.
