

MPLA Bylaws Subcommittee
July 2009 Board Report
Wayne Hanway

I have been going through the Bylaws and the Manual of Procedure (MOP) page by page, making note of changes to consider, both large and small. By our next meeting, I hope to have a full list pulled together, with recommendations, to be considered. Several changes are needed to both the Bylaws and the MOP to more accurately reflect our online election process.

A major item for the Administration Committee and the Board to consider is whether anything is needed to replace what was in the Bylaws and the MOP concerning the Electronic Communities. The MOP may need to have some specific sections added concerning the various aspects of the community portal.

Respectfully submitted,
Wayne Hanway
