Communications Committee Report  
January 8, 2009

The MPLA Board decided against a survey about the newsletter format. It would seem that that issue is now closed.

The committee would like more guidance from the Board about the Wikipedia article about MPLA. Does the Board want just a quick note, a long history, or something in-between. Also what kind of links would the Board want, just the website or maybe also directly to 'join'. Anyway, we would like to hear from the Board before we spend time doing something they don't want.

The committee is beginning discussions about what we need to do to promote the Community Portals and about a new name for the Leadership Institute.
