Report to the Board

March 21, 2012

May is just around the corner and the Leadership Institute Coordinator and Committee are gearing up for an exciting time!

Judy started an e-list where participants and mentors can introduce themselves and begin sharing. The group is already showing its diversity in terms of background and experience, and exuding enthusiasm for the experience to come.

We are currently working on the Agenda, focusing on Maureen's sessions, incorporating iii Focus Groups and mentor-led sessions to take place after Maureen departs. I am pleased to report that Billings 'Road Warrior' and Friend of MPLA, Gene Shimshock, VP for Marketing at Innovative Interfaces will be leading the Focus Groups. Due to the length of the Institute, it is unclear (at this time) whether iii will be sending a staff member to participate in the entire LI.
