MPLA Professional Development Committee - Report for the Board

July 28, 2017

Meetings: The committee met on June 14, 2017.

- One state grant application was approved.
- One individual evaluative report was approved and monies distributed to the individual.
- Two state evaluative reports were approved and monies distributed to the organizations.
- The committee also discussed the question that was raised in the last MPLA Board meeting discussing whether Professional Development Committee funds could be used towards credit bearing courses. The MPLA PDC website indicates that the funds may be used in this manner. Additionally, PDC members felt that this would be an appropriate use of funds by MPLA members. We discussed how we could promote the use of funds in this manner to solicit more applications of individual grants.

Respectfully Submitted,

Ryan Buller
