Professional Development Committee Report  
Connie Lamb, Chair  
October 2008

The Committee met on August 20, 2008. We approved one individual professional development application for \$600. There are a couple of evaluative reports pending, but considerable money is left (\$1000 for state association preconference grants and \$3850 for individual PD grants) because we have not had as many requests as last year. The executive secretary and president will encourage MPLA members to apply.

Committee members reviewed the continuing education webpage and were asked to help update it. The executive secretary sent an email to the state representatives for updates and additions and we have heard from about half of them. Once the page is updated, we can encourage its use for CE opportunities.
