Past President's Report

Rob Banks

I have nothing new to report since our last board meeting. As always, Judy Zelenski has the budget and the organization well in hand. We are very lucky to have the high caliber staff that we have in MPLA. Judy does an incredible job and manages to find ways to guide the organization to excellence in a frugal manner. She also produces the best newsletter out there!

Dan gives great creativity to the organization and thinks about ways to improve the website all the time. Every time we talk, he has new ideas to make things better.

Roy has set up some valuable tools for us to use, especially in this time of budget crunches. I have to admit, I've not taken advantage of those tools like I should and will change that.

This is my last official report as Past President. I cannot express what a great honor it has been to have served MPLA and to have made so many good friends.

MPLA is strong because of the participation of the members. I'm proud to have worked with all of you and look forward to many more years of participation. Thank you.
