

MPLA Continuing Education Committee Report
1/2004

Pre-Conference Grants

Since the MPLA/NLA/Reforma Tri-Conference in December, the Committee received and approved the following pre-conference grant application:

- DDC 22: A Workshop on the Dewey Decimal Classification Edition 22, a pre-conference to be held Wednesday, 14 April 2004, prior to the Oklahoma Library Association Conference in Tulsa, Oklahoma. The grant was approved for \$500.

The Committee received the evaluative report of the pre-conference held in connection with the Colorado Association of Libraries Conference. Payment was authorized and has been made.

We remind State Reps to make the respective state associations aware of the opportunity to receive such grants. They are easy to apply for using the web form that has recently been enhanced by our most accommodating Webmaster.

CE Clearinghouse

The clearinghouse mentioned in prior reports will be the main topic of discussion in the Committee's first virtual meeting of the year which will convene sometime in the first two weeks of February. That meeting is in the process of being arranged.

Respectfully submitted,
C. Jeffrey Belliston
Chair
