

MPLA Board Report
Leadership Institute Ad Hoc Committee
July 23, 2008
Sharon Osenga, Chair

The committee hit a roadblock after annual conference. We decided that we needed to look at the outcomes for the Leadership Institute before moving ahead. However, after contacting a number of people, it appears that MPLA has never established any outcomes for the Leadership Institute. Development of these will be a part of our final recommendation to the Board.

We have two of three price quotations from sites. I am still waiting for the third. When it arrives, I will most likely do site visits to two of the sites that are somewhat nearby.

We expect our final report to be brought to the board at the fall 2008 in-person meeting in Denver.
