MPLA Technical Services Section Report  
October 10, 2005  
Dustin P. Larmore

There is not much to report from the Technical Services Section. A program proposal on authority control and subject headings was submitted to WLA/MPLA for the annual conference, but was not accepted despite support from several MPLA members. Rachel White was elected Chair of the section. We were pleased to get more than one person to run for the office. S. Michael Kim will become chair following the conference in Jackson Hole.

Agenda items for Wyoming include: inquiring about how MPLA programs are chosen by state conference planning committees and shoring up participation during the year without a conference.
