2010 MPLA/OLA Conference Web Wrap

Following the April conference, I continued to receive copies of handouts and presentation files from sessions. OLA decided to archive them as well as MPLA. The webmaster and I swapped files as they arrived. All told we have archived 31 files for 21 sessions.

Back Issues of the *MPLA Newsletter*

Dana Boden contacted me a couple of weeks ago regarding some old issues (going back to 1989) of the *MPLA Newsletter* she had. I think she wanted to pitch them but thought I might be interested in them. We have a running archive of the *MPLA Newsletter* starting in 2000, with a couple of missing issues, which this will allow me to fill in. Judy also has a complete collection in paper, and the MPLA Archives at Denver Public Library should also have them all. This will allow us easy access to the last 20 plus years. We also have a 1949 issue that Joe Edelen scanned and sent to me. I've kind of flipped through them in print – they're kind of cool. I've only been a member since 1996, so going back and looking at issues from the time I joined is a treat (also reminding me of how old I am! ☺)

Respectfully submitted,

Dan Chaney
MPLA Webmaster
