

ST-4: Montana

March 2015

General News:

Offline technology retreat that happened on Feb. 6th & 7th was a well-attended event by librarians across the state. E-Line Media were a hit with their Game Design workshop especially when they gave every librarian free access to the game design course. So, the weather was wonderful (no snow to travel through), the sessions were informative, and the chocolate was plentiful – a great success.

Everyone is now gearing up for our upcoming conference called *Access for All: A Montana Value*. It takes place April 8-11, 2015 in Bozeman. The keynote speaker is Barbara Jones, Director of ALA's Office of Intellectual Freedom, and our guest author is Tim Tingle. And I am excited that our MPLA President, Annie, will be in attendance at our conference.
